## EMPLOYMENT

### College Professor

*April 2022 – Present*

Assists college students in learning web design and site development. Students learn web accessibility standards, tools and techniques to design, create, and publish web sites that are user-friendly. Topics include client and marketing analysis, visual design, workflow and team process, coding, and website testing.

### Web Development Tutor

*January 2021 – Present*

Assists college students in one-on-one sessions to understand core concepts from computer technology courses and help develop good study habits.

## EDUCATION

### Clark College, Vancouver, WA

*Graduated June 2021*

Associate in Applied Technology Web Development

## VOLUNTEER

### Tutor Volunteer

*January 2016 – Present*

Assists students who need help with Math or other subject homework. Communicate with students in the language that they speak and understand concepts.

- Help students one-on-one by appointment.
- This is home-based tutoring.

## ADDITIONAL EXPERIENCE

### Project Manager

*July 2020 – August 2020*

Web Design and Interface Course Project

Responsible for planning, overseeing and leading team in creating website project that involved speaking with the client making the design, getting feedback, and developing it. This was for a college course.

- Scheduled and led team meetings.
- Communicated with client through meetings or email.
